

Dear Vianey,

I regret to inform you that the Concordia Film Society Symposium has been cancelled. Several reasons led our team to make this decision, including COVID-19 related issues. Nevertheless, the main one was that we felt this festival was going in the opposite direction of our Mission to help filmmakers in the Concordia University community and Montréal at large. We have a serious policy of being honest to our participants, and that is why we are being as transparent as possible to you now.

We sincerely thank you for your submission, and we hope to see you at other of our events. Soon, we intend to re-structure the Symposium in a way that fits better our values, and we hope to see you and your wonderful films again in the future.

Once again, we apologize for the inconvenience and thank you for your participation. Also, if you require any further clarification, please feel free to contact us.

Best regards,
Gabriel Reginaldo
Creative Director

Dear Vianey,

Thank you very much for creating your artwork and submitting it to our festival. We are very committed to the film selection process, each one is seen several times by a curatorial team specialized in experimental cinema.

Due to the large number of films received (1061) we have taken more time to make the selection. From today until the first week of July we will notify by email to chosen artists and those who are not.

The festival will take place throughout August, virtually on our website and presencially in Bogotá cinemas. We do not have much time, so we want to suggest you to work on the translation of your film into English and Spanish (subtitles in SRT file), something that in addition to be needed for our festival will also help you reach more audiences and festivals worldwide . The translation includes all the information of the artwork such as the title and the synopsis.

Wait for our next emails.

We wish you good health, love and creativity,

Bogotá Experimental Film Festival
